

A mind shift from the public health vs private sector dichotomy: how to integrate the private sector in health systems governance?

Tuesday 7th December 2021

14.00 – 15.00 CET

https://bit.ly/webinar_211207_registration

To support better governance of health systems, WHO is launching the Country Connector on the Private Sector in Health (CCPSH), an initiative to provide a platform to support countries to engage with the private sector toward achieving public health goals.

Purpose of the Country Connector:

- Share experiences across countries
- Connect countries to resources, tools and guidance
- Coordinate multiple actor efforts
- Help rebuild health systems

Programme

- 14:00-14:05:** Welcome
- 14:00-14:30:** Interventions from policy makers, private sector representatives & leaders.
